

Methodology

300 [Spotify](#) playlists with 46,869 songs were compiled using the keywords "NFL", "Tailgate party", "NFL Team + Tailgate". Then the number of times a song and an artist appeared were counted. In this way the rankings were made. A total of approximately 18,000 songs and 5,298 artists were counted. To determine which team has the best playlist, an average was made between the variables energy, danceability and popularity of the songs.
